Special Issue

Sustainable Biopolymers from Agricultural and Industrial Waste: Synthesis, Properties, and Applications

Message from the Guest Editors

This Special Issue aims to highlight recent advances in the development of sustainable polymeric materials derived from renewable resources and agricultural or industrial waste. Particular emphasis will be placed on innovative approaches for the synthesis, modification, processing, and characterization of biopolymers and bio-based polymeric materials designed to reduce dependence on fossil-based resources and promote the valorization of waste streams.

Guest Editors

Prof. Dr. Diego Acevedo

About the Journal

Message from the Editor-in-Chief

The *International Journal of Molecular Sciences* (*IJMS*) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. José L. Quiles
Department of Physiology, Institute of Nutrition and Food Technology "Jose Mataix", Biomedical Research Center, University of Granada, Avda. Conocimiento s/n, 18100 Armilla, Granada, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Inorganic Chemistry)
